The software **Customs Management version 18.1.3** *complies* to system requirements of **NCTS (phase 4)** specified by the Czech Customs Administration for trader´s declaration systems for the roles authorised consignor and authorised consignee

and it is compatible with ECR_NCTS system version 2.53.

This Certificate is issued based on the tests of compatibilty passed to 2.7.2018 between The Czech Customs Directorate General represented by the HelpDesk department and the Company BluJay Solutions GmbH.

The compatibility was verified on the scenarios (published on www.celnisprava.cz) for the roles authorised consignor and authorised consignee except the scenarios 0.3VI and 0.3VII and it confirmes the correct implementation the given ECR (Elektronické celní řízení – Electronic customs clearance) messages and the related rules and conditions. The actual wording of the ECR messages and the related rules and conditions is published on the website of The Czech Customs Administration.
       The Czech Customs Administration, according to the planned development of the customs systems, publishes on the Internet summary of the ECR messages and the related rules and conditions changes by so called ECR KEL at least 6 weeks before the new version installation. These new versions are not the part of this Compatibility Certificate.
